GOODBYE, MR. UFO

By the Editors

Dear Friends of the Bizarre and Fellow Explorers of the Unexplained, It is with

heavy hearts and a lot of love that we dedicate this issue of Conspiracy Journal to Timothy Green Beckley—our founder, our guide, and our friend. Tim was one of a kind. He spent his life chasing the weird and the

wonderful, and he brought us all along

for the ride. Whether it was UFOs, time travelers, the shadowiest government secrets, or unknowable interdimensional beings, Tim never stopped asking questions—and he never stopped having fun while doing it.

He had a mind that never quit and a sense of humor that made even the strangest stories feel like late-night conversations with an old friend. This journal—and this whole wild community—wouldn't exist without him. And though he's moved on from our worldly realm, we

like to think he's now deep in Hollow Earth, joyriding in a flying saucer, swapping stories with chrononauts, maybe even sharing a cosmic joke with an alien over coffee on Venus.

In his honor, crack open one of the classics Tim loved—the books that opened portals to other worlds and dared us to think beyond the ordinary. He believed in infinite possibilities, and we're keeping that flame alive.

This isn't goodbye. Tim's voice still echoes in the hundreds of books he published, the interviews and podcasts scattered across the web, his YouTube channel Mr. UFO's Secret Files, and of course, right here in the pages of Conspiracy Journal.

So here's to Tim—to the strange, to the unexplained, and to all of you who keep looking up and wondering what's out there. Thanks for sticking with us through the weird.

MY FRIEND MR. UFO

A TRIBUTE TO TIMOTHY GREEN BECKLEY

I didn't know it at the time, but the very first mail-order book I ever bought as a kid would introduce me to a man who'd become a lifelong friend—Timothy Green Beckley, also known as Mr. UFO.

The book was *The Shaver Mystery* and *The Inner Earth*, published by Gray Barker's Saucerian Press. It wasn't until years later that I connected the dots and realized it was Tim's work. As it turns out, that book was his first, and it remained a treasured part of my ever-growing collection for decades. Over the years, I began noticing Tim's name popping up across all kinds of media. He was a UFO stringer for *The National Enquirer* and a contributor to *SAGA* magazine, *Official UFO*, and many others. If you were interested in UFO phenomena, it was nearly impossible not to come across Mr. UFO.

Our first direct connection came in the early 1980s after I interviewed J. Allen Hynek for WHIO-TV 7 in Dayton, Ohio. Tim reached out, asking for a transcript of the interview. I sent him not only the transcript but a VHS tape as well. I'm not even sure he had a VHS machine at the time, but he was so appreciative that he mailed me copies of his UFO newspaper, *Interplanetary News Service*. That simple exchange sparked the beginning of our friendship.

By the time I relocated from Dayton to Indianapolis, Tim was launching a new magazine, *UFO Universe*, and invited me to contribute. It took a little time before I could jump in, but once I started writing for Tim, there was no stopping.

What amazed me most was how effortlessly Tim connected with people. He

had a unique ability to gain the trust of UFO experiencers—many of whom refused to speak with other investigators. With Tim, they'd open up; sometimes sharing incredible stories they hadn't even told their own families. He had a way of putting people at ease that was rare and sincere. If you were a friend of Timothy Green Beckley, you were a friend for life.

With the success of his magazines, Tim returned to publishing books, and I was all too willing to contribute whatever writing talent I could offer. Together, we worked on numerous titles under his Global Communications/Inner Light Publications imprint—so many, in fact, that I've lost count.

He often claimed, and rightfully so, that he probably knew more about the UFO movement since the 1950s than anyone still around. His knowledge was nearly encyclopedic. If I ever needed help recalling a specific case or detail, I only had to ask—Tim would remember it instantly.

I miss our nearly daily conversations. And not just about UFOs—we talked about everything.

Though Timothy Green Beckley has been gone from this earthly plane for a few years now, I still find myself expecting an email or a phone call from him. If anyone could make that happen from the great beyond, it would be Mr. UFO. I like to believe he finally caught that ride on the mothership and is now exploring the cosmic wonders he once only wrote about.

Hopefully, someday, I'll catch up with him—and we'll pick up right where we left off.

Timothy Green Beckley may no longer be with us in body, but in spirit—and in the pages of every book and article he left behind—his legacy lives on.

New breakthrough on the "suicide" of Blue Beret's whistle blower Philip Schneider whose underground battle in the alien bunkers of Dulce, NM, has been heatedly debated. "Even before the reign of Philip of Macedonia, "the ancient Roman philosopher Seneca wrote in his "Questions of Nature," "Men forced their way into caverns, where it is impossible to tell the day from the night, and penetrated to the deepest hiding places. They saw great rushing rivers and vast still lakes, sights that made them tremble with horror.

They descended to a world where the whole of nature is reversed. The land hung above their heads while winds

whistled hollowly in the shadows. In the depths, frightful rivers lead no where into perpetual and alien night. After accomplishing so much, these men now lived in fear, having tempted the fires of hell.

Some Call These Cases Mere, "Urban Legends", But In Shocking Contrast - They Are "All Too Real!"

Over 20 of the world's leading Ufologists establish that humans have done battle with aliens over and over again, shooting at them, molesting them, hitting them, running them over, unleashing dogs upon them, and injuring and even killing them through any means possible, as humans try to combat their fear of the unknown. In multiple instances, the aliens have fought back on land, in the air and in the sea. They have sought revenge, and more often than not, gotten it, as these documented cases illustrate. Here are over a hundred reports of the strangest close encounters with humanoids who have been known to use "excessive force" to defend themselves such as in the case of a NY hunter whose rifle was ripped from his hands, the barrel twisted like a pretzel, and then handed back to the stunned participant in this very bizarre other-worldly skirmish.

INSIDE THE SAUCERS: MR. UFOS TEENAGE YEARS - \$12.95 + \$5 S/H

First published in 1962 by a teenage Tim Beckley, *Inside the Saucers* returns in this faithful reprint—a true collector's gem from the early days of American UFOlogy. At just 15, Beckley founded the "Interplanetary News Service," connecting with fellow teen saucer enthusiasts who would later become legends in the field, including Allen Greenfield, Jerome Clark, and David Halperin. This revived edition features the same original content—with a few photos added and typos cleaned up—and dives into long-lost topics such as Nazi-developed UFO technology, the mystery of the Men in Black, and

USOs plunging into New Jersey reservoirs. It also includes rare insights from early researchers like George D. Fawcett and a recap of the era's most dramatic sightings.

A nostalgic and surprisingly sophisticated look into the passion and drive that shaped modern UFO research, this volume is both a tribute and a time machine—honoring the teenage truth-seekers who helped launch an entire movement.

Step in, spin out, and see where the story takes you.

Bigfoot Below. UFOs Above.

NOWHERE IS SAFE!

For decades, the story was simple: UFOs were science fiction. Strange lights in the sky were weather balloons, military tests, or the imagination running wild. But as the sightings mounted, and the denials grew colder, the cracks in the official narrative became impossible to ignore.

Now, in this gripping investigation, Kai Larson pulls together the most undeniable UFO incidents of our time and asks the question no one dares to confront: Why is the truth being revealed now? And what are they still hiding from us?

Chapter by chapter, *Grey Skies: Controlled Disclosure* explores the sightings that slipped through the cracks of secrecy—each one a documented event, witnessed by military officials, commercial pilots, and everyday citizens. From the chilling Tic Tac encounters off the coast of California, where pilots chased craft that defied the laws of physics, to the SUV-sized objects seen hovering over New Jersey highways, these are not distant legends. These are

The Silence Is Coordinated

CONTROLLED DISCLOSURE

KAI LARSON

GREY SKIES: CONTROLLED DISCLOSURE

recent, verified encounters that shook the military, media, and public alike.

But this is only the surface. Beyond the radar contacts and cockpit videos lies a deeper pattern: sudden government admissions, strange silences, and a carefully timed release of information. Is this a reluctant confession, forced by undeniable evidence? Or is it the next phase of control? A limited disclosure designed to distract us from a larger, darker reality?

With a voice equal parts investigative and urgent, Larson takes you through secret military projects, hidden radar data, and the tangled history of government disinformation. You'll meet the whistleblowers who risked everything to speak, and uncover the media's role in shaping what the public is allowed to believe.

Grey Skies does not offer wild theories or outlandish claims. It gives you the raw, documented facts—and then follows them where they lead.

In the final, most chilling chapters, Larson turns the question back on the reader. Are we being prepared for something greater? Are these revelations the first step toward open contact, or the opening move of a new kind of deception? What will we see when we finally look beyond the sky itself?

There are creatures in this world that live just beyond the firelight—massive, intelligent, and terrifyingly aware. For centuries, they've been dismissed as folklore, chalked up to overactive imaginations or campfire exaggerations. But what if the truth was far older—and far stranger—than we've been told?

American Bigfoot: Encounters from the Frontier is not a modern collection of shaky sightings or anonymous internet chatter. This is a deeply researched, chilling anthology of encounters with the unexplained—drawn from frontier diaries, military dispatches, missionary records, Indigenous oral traditions, and long-lost private journals dating from 1792 to 1846. In the words of the witnesses—explorers, settlers, soldiers, and tribal elders—something was seen in the vast, uncharted forests of early America. Something that walked like a man... but wasn't.

Folklorist and historian J.M. Harrow has resurrected over a century of forgotten lore—testimonies long buried in historical archives or dismissed as regional superstition. But when viewed collectively, a disturbing pattern emerges. Reports of towering humanoid with glowing eyes and unnatural silence. Creatures that mimic human voices, trail campsites without leaving prints, and vanish in an instant without a trace. Stories of massive footprints in snow, of guttural howls that made seasoned woodsmen weep, and of entire settlements

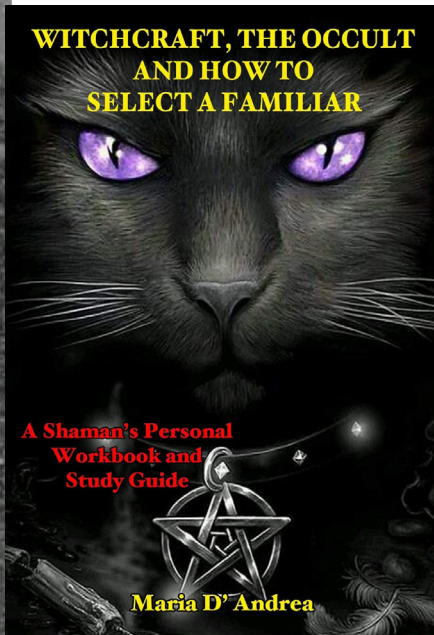

haunted by a looming presence that no bullet could stop.

American Bigfoot: Encounters from the Frontier is not just a collection. It is a revelation. Step carefully. Read slowly. **AND NEVER FORGET—SOMETHING IS STILL OUT THERE.**

CAST OUT CHAOS, CALL IN POWER: OCCULT RITUALS TO BANISH NEGATIVITY AND AWAKEN YOUR SPIRITUALLY

YES YOU CAN! WORKING WITH FAMILIARS IN MAGICK AND THE OCCULT

Part of Maria D'Andrea's empowering Yes You Can series, this guide reclaims the misunderstood role of the familiar—those mystical allies who walk beside witches, shamans, and spiritual practitioners across cultures and time. Far beyond the tired trope of black cats and broomsticks, D'Andrea explores a vast spectrum of spirit companions: cats, dogs, horses, wolves, birds, snakes, butterflies, dolphins—even symbolic and inanimate totems like motorcycles, stones, classic cars, dragons, and angels.

Rooted in both ancient tradition and modern practice, this book dismantles the fear-based myths perpetuated by history and media. Once labeled demonic spies or Satan's servants, familiars were said to shapeshift, feed on blood, and act as tools of the Left Hand Path. But as D'Andrea clarifies, nature is neutral—what matters is the intent of the practitioner. Familiars are powerful aids not just for spellcasting, but for healing, relationship harmony, business success, and personal transformation.

This workbook and study guide offers readers a clear path to discovering, understanding, and partnering with their own familiar. Whether animal or totem, your familiar is uniquely attuned to your energy and goals. Learn the traits that make a true familiar, the benefits they can bring to magical and everyday life, and how to initiate this sacred connection with respect, clarity, and purpose.

With deep insight from a seasoned European shaman and spiritual consultant, Working with Familiars invites you to form a meaningful bond with the forces of nature—furred, feathered,

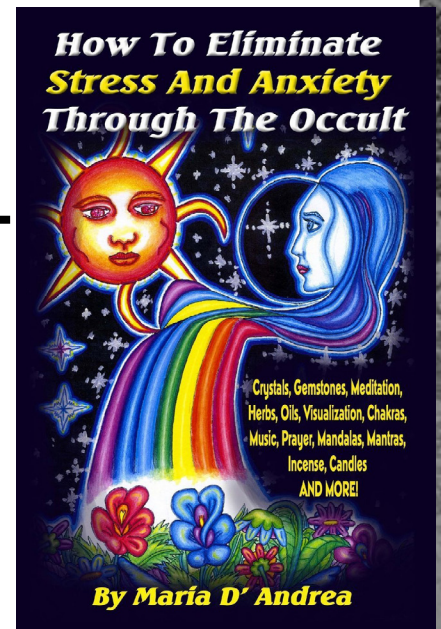

or forged—that are eager to guide and empower your journey through the magical world. forces throughout the universe.

The Visionary Art of CAROL ANNE RODRIGUEZ

A FULL-COLOR ODYSSEY THROUGH UFOS,
FANTASY, HORROR, AND THE COSMIC UNKNOWN

For the first time ever, we are proud to present a full-color collection showcasing the bold, otherworldly artwork of Carol Ann Rodriguez—a name long admired behind the scenes, now stepping fully into the spotlight. This vibrant portfolio explores the outer edges of reality, featuring extraterrestrials, interdimensional entities, occult visions, and creatures torn from the pages of sci-fi and horror classics.

As publisher and colleague Timothy Green Beckley recalls, Carol's style evokes the psychedelic energy of Peter Max—electric colors, starburst patterns, and cosmic surrealism. Inspired by UFOs, mysticism, and the idea that other dimensions pulse just beyond the veil, she immersed herself in the occult arts and joined expeditions into ancient alien mysteries—including a memorable research trip to the Yucatan with Beckley himself. But it's her art that speaks loudest: portraits of beings that feel both imagined and remembered, cosmic travelers rendered in colors no other artist dares to use. Whether you're a believer, a dreamer, or simply drawn to the fantastic, Aliens, Angels & Otherworlds is a gateway into a universe of pure imagination. *This is not just a book of art—it's an astral journey.*

NIKOLA TESLA MAN OF MYSTERY

NEW - NIKOLA TESLA JOURNEY TO MARS UPDATE

WITH SHOCKING PHOTOS THAT SHOW DOCUMENTED EVIDENCE OF LIFE ON MARS!

Thanks to technology developed by the "wizard Nikola Tesla," Mars is no longer the Mystery Planet! What is the truth about a supposed Secret Space Program outside the jurisdiction of NASA? For centuries astronomers have peered through their telescopes for signs of life on the Red Planet. Some thought they saw canals or strange lights that roamed the surface. Jules Verne - and other early pioneers of science fiction - wrote what were then considered to be far-fetched stories about the exploration of the moon and the planet Mars. They based their classic literary works not just on their own fertile imaginations, but on "wild rumors" circulating that such voyages had already been made, accomplished by a group of scientists - all members of the same secret lodge or society that had tapped into an unknown power source, using it to facilitate the birth of flight, years before the Wright Brothers were able to leave the ground. Contacted by this secret fraternal order, Nikola Tesla is said to

have furthered their cause, coming up with his own method of interplanetary travel, soon to be stolen and used by Hitler and perhaps the New World Order. Here is proof that scientists and engineers regularly travel back and forth between colonies that have been set up on the Martian surface and deep underground. Update is all part of a super secret space program that the public has been told nothing about. ☐ **LARGE FORMAT - \$20.00**
